"MORE THAN JUST NUMBERS"

# AN INTRODUCTION TO SUDOKU WORD SEARCH

The puzzles came from an idea by Charles Morgan that there was so much more fun to be had from Sudoku played with letters rather than just numbers. After much trial-and-error, the combination of Sudoku and Word Search were found to be the ideal partners. The puzzle layout actually allows the Sudoku to be played with letters and/or numbers and with the Word Search this gives you 3 puzzles in one!

The Sudoku Word Search range comprises of a number of A5 books each containing 50 puzzles with full instructions and a solutions page. Each book has its own individual theme which is used to build the Word Search puzzle as well as additional clues to help find a missing 9-letter word.

The puzzles are aimed at the average level of Sudoku player and provide additional game play that appeals to both the players of Sudoku and Word Search puzzles alike. Many more themed puzzles are already in the pipeline.
